WOW!!! Get your best duds out, scrap the grit from your boots and paste on your best smile, Victor Ketellapper and EPA are bringing CBS News to town for another "HALF" story on Libby. The agenda will be the same, the people will be the same, and the STORY will be the same but this time the party is on the EPA. I love this part of the mix as quoted in this morning's Western News by Montana's own C LaCours, *"The CBS visit offers a really good opportunity for this kind of publicity...As community leaders, I would suggest you get with (EPA Community Involvement Coordinator Libby Faulk) and see what names EPA can provide to CBS and you guys formulate the message that you want to send out."* SOUNDS A LITTLE LIKE A CORPORATE PR PLAN TO ME. In any regard, the message

should represent the entire community, based on scientific fact and reflect the absolute truth. We are after all, impacting people's lives you know!!! EPA region eight and Montana DEQ are beginning to sound like BP when they announced their oil suddenly vanished from the Gulf.
